## START YOUR ENGINES!

### USE PRACTICE AREAS

★ Many racing games have practice areas for when you're not competing. Think of it as warming up the same way would for sports IRL – this will make you feel more confident for the real deal!

### CHALLENGE YOURSELF

★ There's always room for improvement and one way you can do this is by changing the difficulty settings. You'll have to fight for your place on the podium, but it'll make your victories feel more rewarding!

### KNOW THE TRACKS

★ It sounds simple but mastering the tracks really helps! Knowing shortcuts in Mario Kart 8 Deluxe or tight corners in Nickelodeon Kart Racers 3: Slime Speedway lets you prepare for what's ahead.

## WAYS TO WIN!

*Not getting the W? Why not try...*

### Learning from your mistakes!

Watching playback features is amazing when you've bagged the W but it's also important for the races you lose, too. This lets you see where you went wrong so you can come back better than ever for the next race and smash it!

## GREAT GAMES!

● You might not know this, but there are a whopping 11 **Dragon Quest** games – and that's just the main series! It took over 20 years for any of the games to be released outside of Japan or North America, but we're so glad they were. ## WHAT'S NEW!

● The latest **DQ** spin-off is here – **Dragon Quest Monsters: The Dark Prince**! Unable to do any harm to monsters, demon prince **Psaro** must become a Monster Wrangler, travelling the land to find new monsters, create super-strong offspring and become the ultimate Master of Monsterkind. If that wasn't exciting enough, **DQ** released another spin-off game earlier this year, **Infinity Strash**, that sees you follow the adventures of young hero, **Dai**!

# SUPER MARIO RPG

**GENRE:** RPG **SYSTEM:** NINTENDO SWITCH

There's no doubt that **Nintendo** are the masters of the remaster! **Super Mario RPG** is the latest classic game to get a new lease of life on the **Switch** – and it looks awesome!

The original **SNES** version of the game was only ever released in Japan and North America, which means **Super Mario RPG** will feel brand-new to lots of gamers around the world! In **SMRPG**, you'll meet two new heroes for the first time, **Mallow** and **Geno**, as you team up on a quest to save **Star Road** from the troublesome **Smithy Gang**. But that isn't the only new alliance in the game – you'll have to team up with **Bowser** too!

We all know that timing is the key to success in platformer-style **Mario** games, but it's actually super-important in **SMRPG**, too. Timing your Action Commands in battles can help you deal more damage to your foes, as well as help reduce any damage that you take in battle. Plus, if you time your attack perfectly, you can even deal damage to all your enemies at once! If that wasn't enough, every time you successfully land an Action Command, you'll start to fill up a gauge. Once that gauge reaches 100%, you'll be able to use your special Triple Move, where all three members of your party attack at once! The Triple Move will be different depending on who is in your party, so be sure to try out a mix of character combos to find the perfect move for you.

Once you've played through the story, you can go back and face-off against some of your fave bosses – but watch out! These battles will be powered-up and much harder than the first-time around. This neat little addition will be sure to keep you playing for ages. The only thing we wish **Nintendo** had added to the game is a multiplayer function. As you battle it out in a team of three, it'd have been super-cool to have your mates join your party and battle alongside you – but maybe that's something they can add in the future!

With an exciting story, fresh graphics, and updated gameplay, **Super Mario RPG** is set to be an awesome addition to the **Switch**, and we're super-excited to get stuck in!

# F-ZERO 99

✓ + SUPER-EXCITING

✗ – SWITCH ONLINE EXCLUSIVE

GENRE: RACING SYSTEM: NINTENDO SWITCH ONLINE

Get ready to race in this epic battle-royale style game. Go head-to-head against 98 other racers as you zoom around classic tracks from the original **F-Zero SNES** games. But there's a twist! Each time you crash, your power meter will get lower and lower... until it's game over!

You can also dip into your power bar when you want to boost, which makes the gameplay super-exciting – and risky! Will you play it safe or put your survival on the line to race into first place?

But it's not all about dodging rivals on your way to the finish line, you can take them out too. **F-Zero 99** introduces a cool Spin Attack that allows you to deal damage to your competitors, adding an extra element of danger to each race.

With so many other racers on the track, a well-timed Spin Attack might just be able to cause a pile-up, allowing you to zip past a whole bunch of other players. Plus, if your attack KOs another racer, your power meter will fill up so you can earn a nice boost!

**F-Zero 99** might look simple and retro but it's super-fun and best of all, it's free-to-play if you're a **Nintendo Switch Online** member!

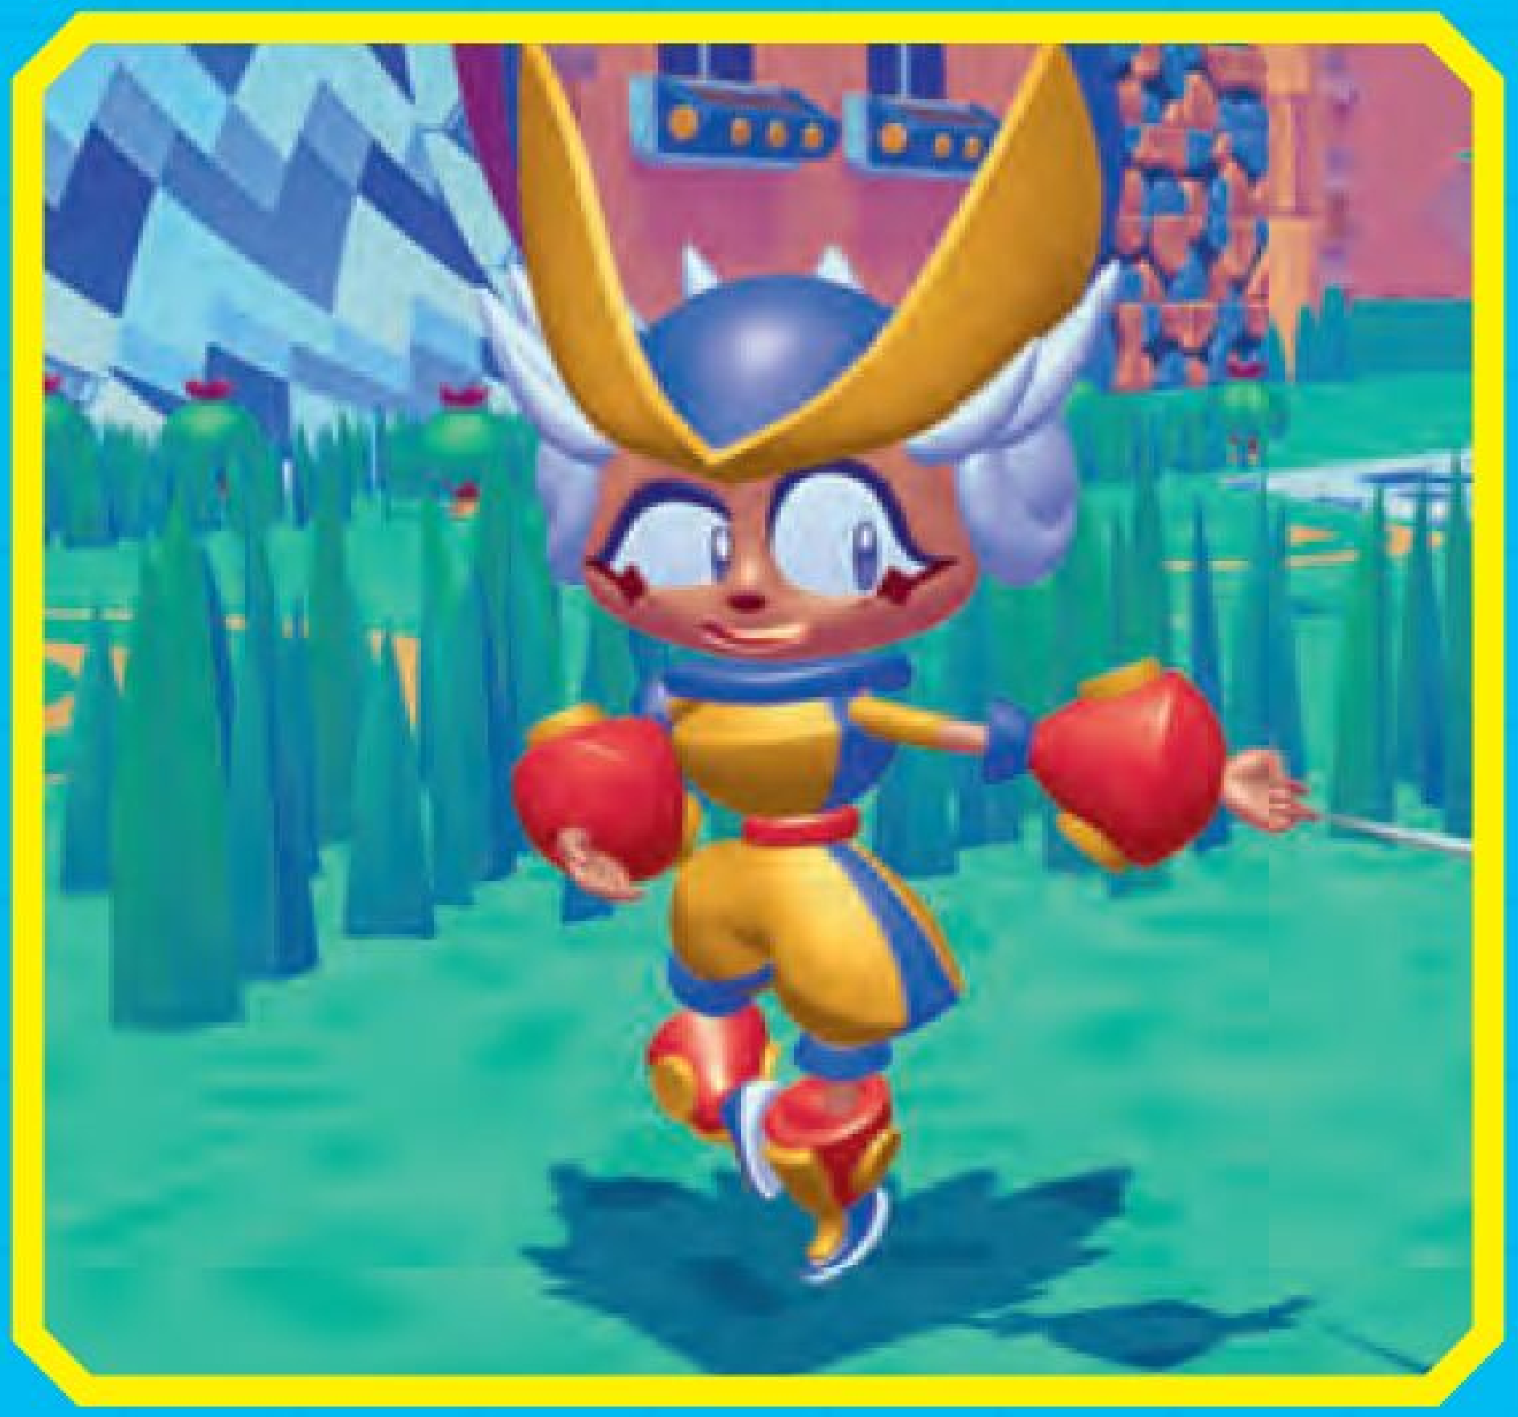
# PENNY'S BIG BREAKAWAY



Welcome to the colourful world of **Macaroon**! You'll play as **Penny**, a street performer who dreams of becoming a big star.

When **Eddie the Emperor** calls for new Palace Court Performers, this seems like her time to shine. However, her audition doesn't exactly go according to plan after a Cosmic String transforms her **Yo-Yo** into a living creature that's hungry for snacks and mischief!

She now finds herself on the run from the emperor's army who'll stop at nothing until they catch her. With the help of **Yo-Yo**, she must outrun the penguins, clear her name, and discover the mystery of the Cosmic String.

It looks like this game will keep you on your toes with hordes of penguins randomly bursting through walls! Whether you thrive under pressure or prefer something less chaotic, you can choose the game mode that's right for you.

We can't wait to dive into this vibrant, fast-paced adventure!

# FAE FARM

A cosy new life is waiting for you in the enchanting world of **Azoria**! In **Fae Farm**, you'll look after magical animals and uncover mysteries, all while growing your homestead.

Customisation is a massive part of the game and there are so many options at the beginning when creating your own character. Making your home look cosy not only looks nice but you'll be rewarded with cosy points too!

We thought the tutorial dragged on a little, and with how simple it is to grasp we didn't feel this was really needed. However, once you've passed this, there's plenty of fun to be had. We liked that you didn't need to switch between different tools when planting seeds.

**Fae Farm** has a magical feel like **Disney Dreamlight Valley** but with simplified **Stardew Valley** mechanics. There's plenty to keep you busy but it never feels overwhelming, making it a great choice for casual gamers.

# UFO: UNIDENTIFIED FALLING OBJECTS

OUR SCORE: 7

YOUR SCORE:

**UFO** is a really fun game for **PC** and **Nintendo Switch**, where you have to line up blocks a bit like in **Bejeweled**. The twist is that the coloured blocks are falling from the sky — and you'll have to run, jump and shoot to clear them! The more blocks you can destroy at once, the bigger your combo will be. It can be intense, but clearing lots of blocks feels very satisfying as you collect power ups and build up high scores!

Every level has a list of challenges to accomplish, and if you can complete enough of them then the game will let you go to the next stage. As the difficulty increases, so will the amount of enemies and obstacles that will try to get in your way. These also drop from the sky at random, which can sometimes make things feel a bit unfair, but once you learn what everything does and what you should deal with first, it gets easier.

**UFO** has really good graphics, music and sounds, and is a perfect game if you only have a couple of minutes to play on a busy day, especially on the **Nintendo Switch**. Don't miss this one!

There are three tiers of boost – blue, orange and pink – with blue being the shortest and pink being the longest, so think pink if you want to achieve top speed!

### CRAZY CUTS!

● Look for shortcuts! Taking a sneaky shortcut can be the difference between first and last place, so be sure to explore each course to find any alternate routes. That might mean you have to come in last place while you look around or get used to the route, but once you've mastered those cheeky shortcuts, you'll be racing towards first place!

## SUPER MARIO ODYSSEY

Reach for the Moon!

### MORE MOONS!

● Each bonus area has not one, but TWO, Power Moons for you to collect. While the first will be waiting for you to collect at the end of the stage, you'll have to hunt around for the second one. It can feel like a bit of a grind sometimes, but it's definitely worth taking the extra time to explore and bag that second Moon!

## SUPER MARIO BROS. WONDER

A wonderful hack!

### YOSHI FOREVER!

● Some enemies can be quite tricky to get by without getting hurt, so why not try playing as **Yoshi**? **Yoshi** and **Nabbit** don't take any damage so they can make it much easier to get through certain levels. They're still capable of losing a life but picking either of these characters definitely reduces the difficulty – perfect for practising!

# BE A SONIC S

## MASTER YOUR FAVE SONIC GAMES!

PULL OUT AND PLAY

## SONIC FRONTIERS

Get ready for an ace adventure!

### MEGA MAP!

- Each island is covered in fog, masking the unlocked areas of the map. Unlocking these as quickly as possible will not only help break up the gameplay with fun challenges but will also help you to keep track of collectibles, and give you access to the fast travel feature, too! Although it's great to unlock the map, you don't have to complete everything on it right away, so don't worry if you have loads of icons to get through – you'll get to them eventually!

### CHALLENGE COMPLETER!

- It might be tempting to just pass a Cyberspace level and move on without clearing all four missions but it's definitely worth sticking around and playing through the level a couple of times to tick off those challenges. Not only will you get a Vault Key for each mission you clear, but if you complete all four, you'll get a bonus of three extra Vault Keys. If you can rack up a whopping seven Keys at each level, you'll nab those Chaos Emeralds in no time!

## SONIC SUPERSTARS

Race to defeat **Dr. Eggman**!

### MIX IT UP!

- Sometimes, all you want to do is play as your favourite character but try mixing it up. Each hero has their own unique abilities which might suit your playstyle better than your fave. While it might be super-tempting just to stick with **Sonic**, you might find it easier to get through a certain level playing as **Knuckles** or **Amy Rose** instead.

# SUPERSTAR!

## SONIC ORIGINS

Old school just got cool!

### AWESOME ANNIVERSARY!

● Platformers can be pretty tricky, especially without unlimited lives and checkpoints! There's nothing worse than having to go back to the start after a Game Over, so be sure to check out Anniversary Mode. This will help you get to grips with the classic gameplay, then when you're feeling more confident, you can boss Classic Mode later!

## SONIC COLOURS ULTIMATE

Colour the universe, Sonic style!

### S IS FOR SLOW DOWN!

● If you get a low grade on a level, you don't need to replay it right away. Getting an S rank is super-satisfying but wait until you've unlocked more Wisps before you go back and try again. With a little bit of patience and a lot more Wisps, getting that S grade will be less of a grind!

SONIC COLORS ULTIMATE

### JUMP START!

● Sonic's super-speed is awesome, but it can make platforming a little trickier. Because Sonic runs so fast, he's a bit slow to jump, so you need to jump a little earlier than you think you do – otherwise you'll run right off the edge of the platform!

## TEAM SONIC RACING

Race into action – vrrrooom!

### SUPER SLIPSTREAM!

● Slipstreams are a great way to get ahead. If you're driving behind a teammate, stay in the yellow stream behind them for as long as you can, then when you exit, you'll get a neat slingshot boost around them. If you're out in front, you'll want your team to be able to get a slipstream boost too, so try to drive as straight as you can to make it easier for them to stay behind you!

# BE A MARIO

## MASTER YOUR FAVE MARIO GAMES!

## MARIO + RABBIDS SPARKS OF HOPE

Spark your strategy!

### COOL COMBOS!

● Think about each character's strengths and weaknesses as you're putting together your team. For example, **Mario** and **Rabbid Peach** are an epic duo thanks to their different skillsets. **Mario's** dual blasters will let you take out two enemies at once, while **Rabbid Peach** can boss ranged attacks, making them a well-balanced duo. Use the same logic when picking your **Spark** and you'll be unstoppable!

### LOOK AROUND!

● Use the world around you to your advantage! Items like jump pads and pipes can help you move around the map more efficiently, giving you the upper hand in battle. Don't forget to use the Beep-O to scan the arena before you start, too. This will give you a better look at your foes and help you strategise even more!

## SUPER MARIO RPG

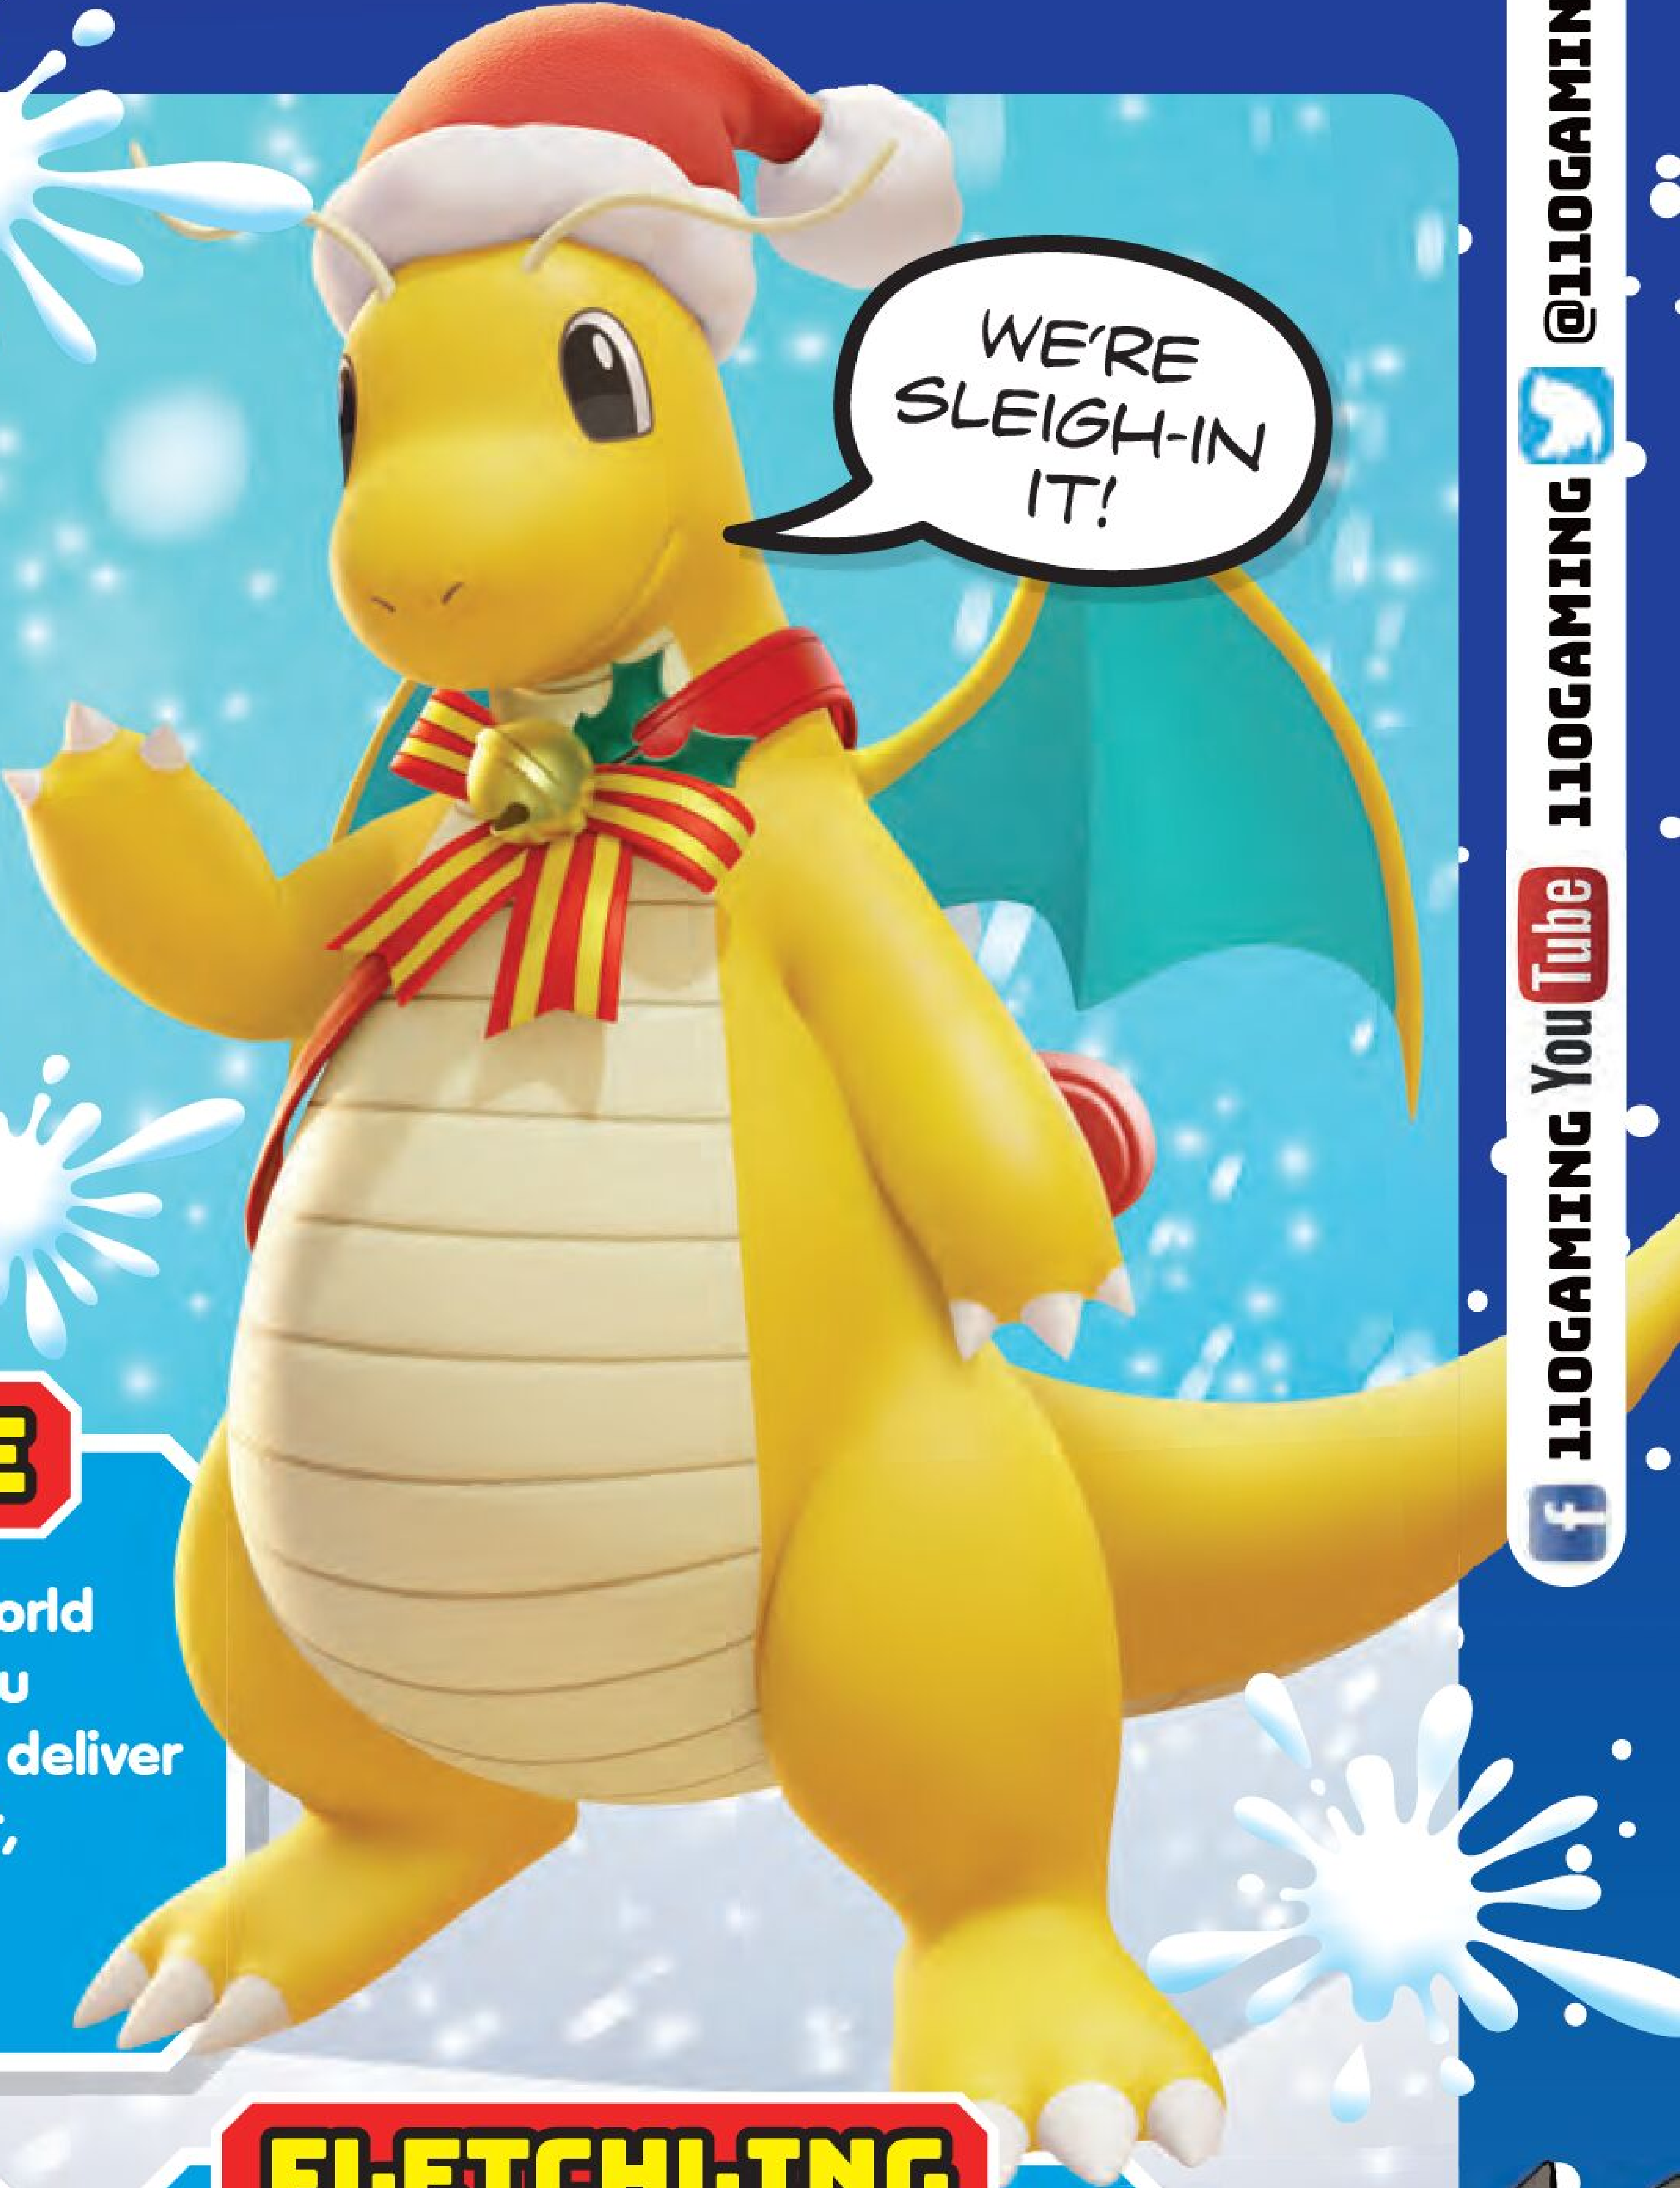
Level up your adventure!

### SUPER STATS!

● Each time you level up, you'll get the chance to boost your stats so take the time to think about which abilities you want to increase. Each character has their own strengths so take your entire team into consideration so you can be ready for anything the game throws at you!

# SANTA'S FESTIVE FORCE!

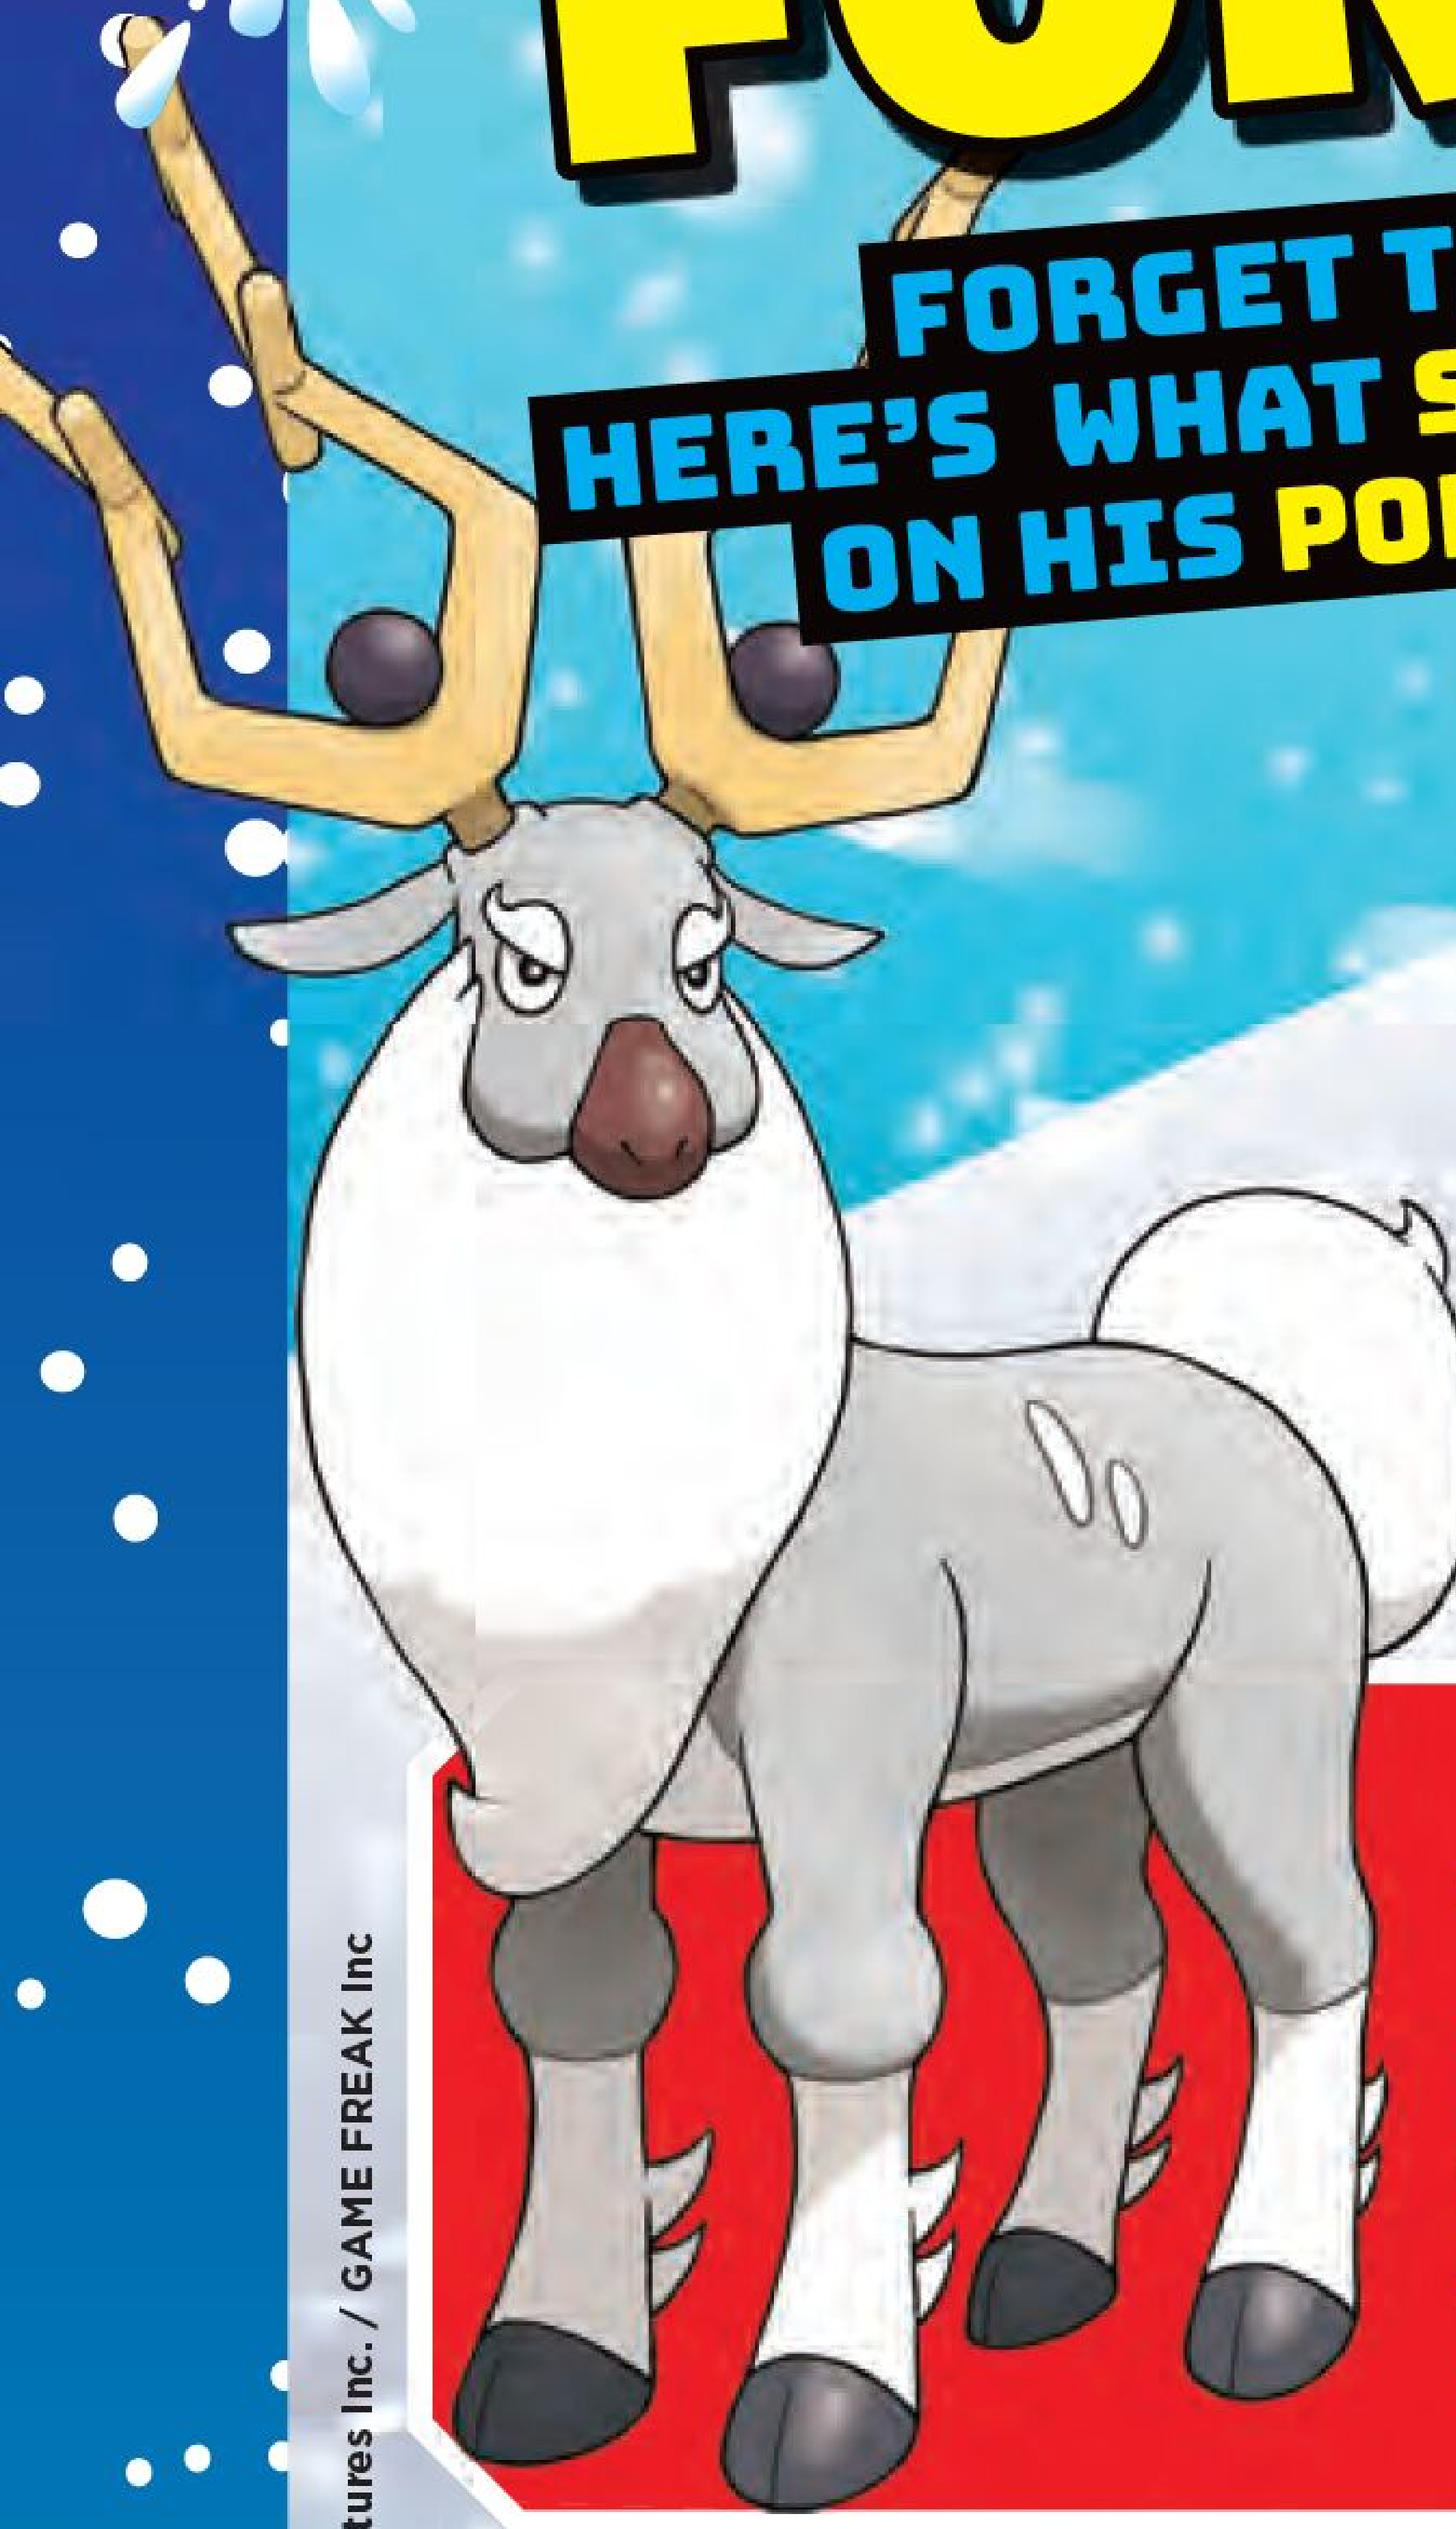
### FORGET THE SLEIGH, HERE'S WHAT SANTA'S PACKING ON HIS POKÉMON TEAM!



WE'RE SLEIGH-IN IT!

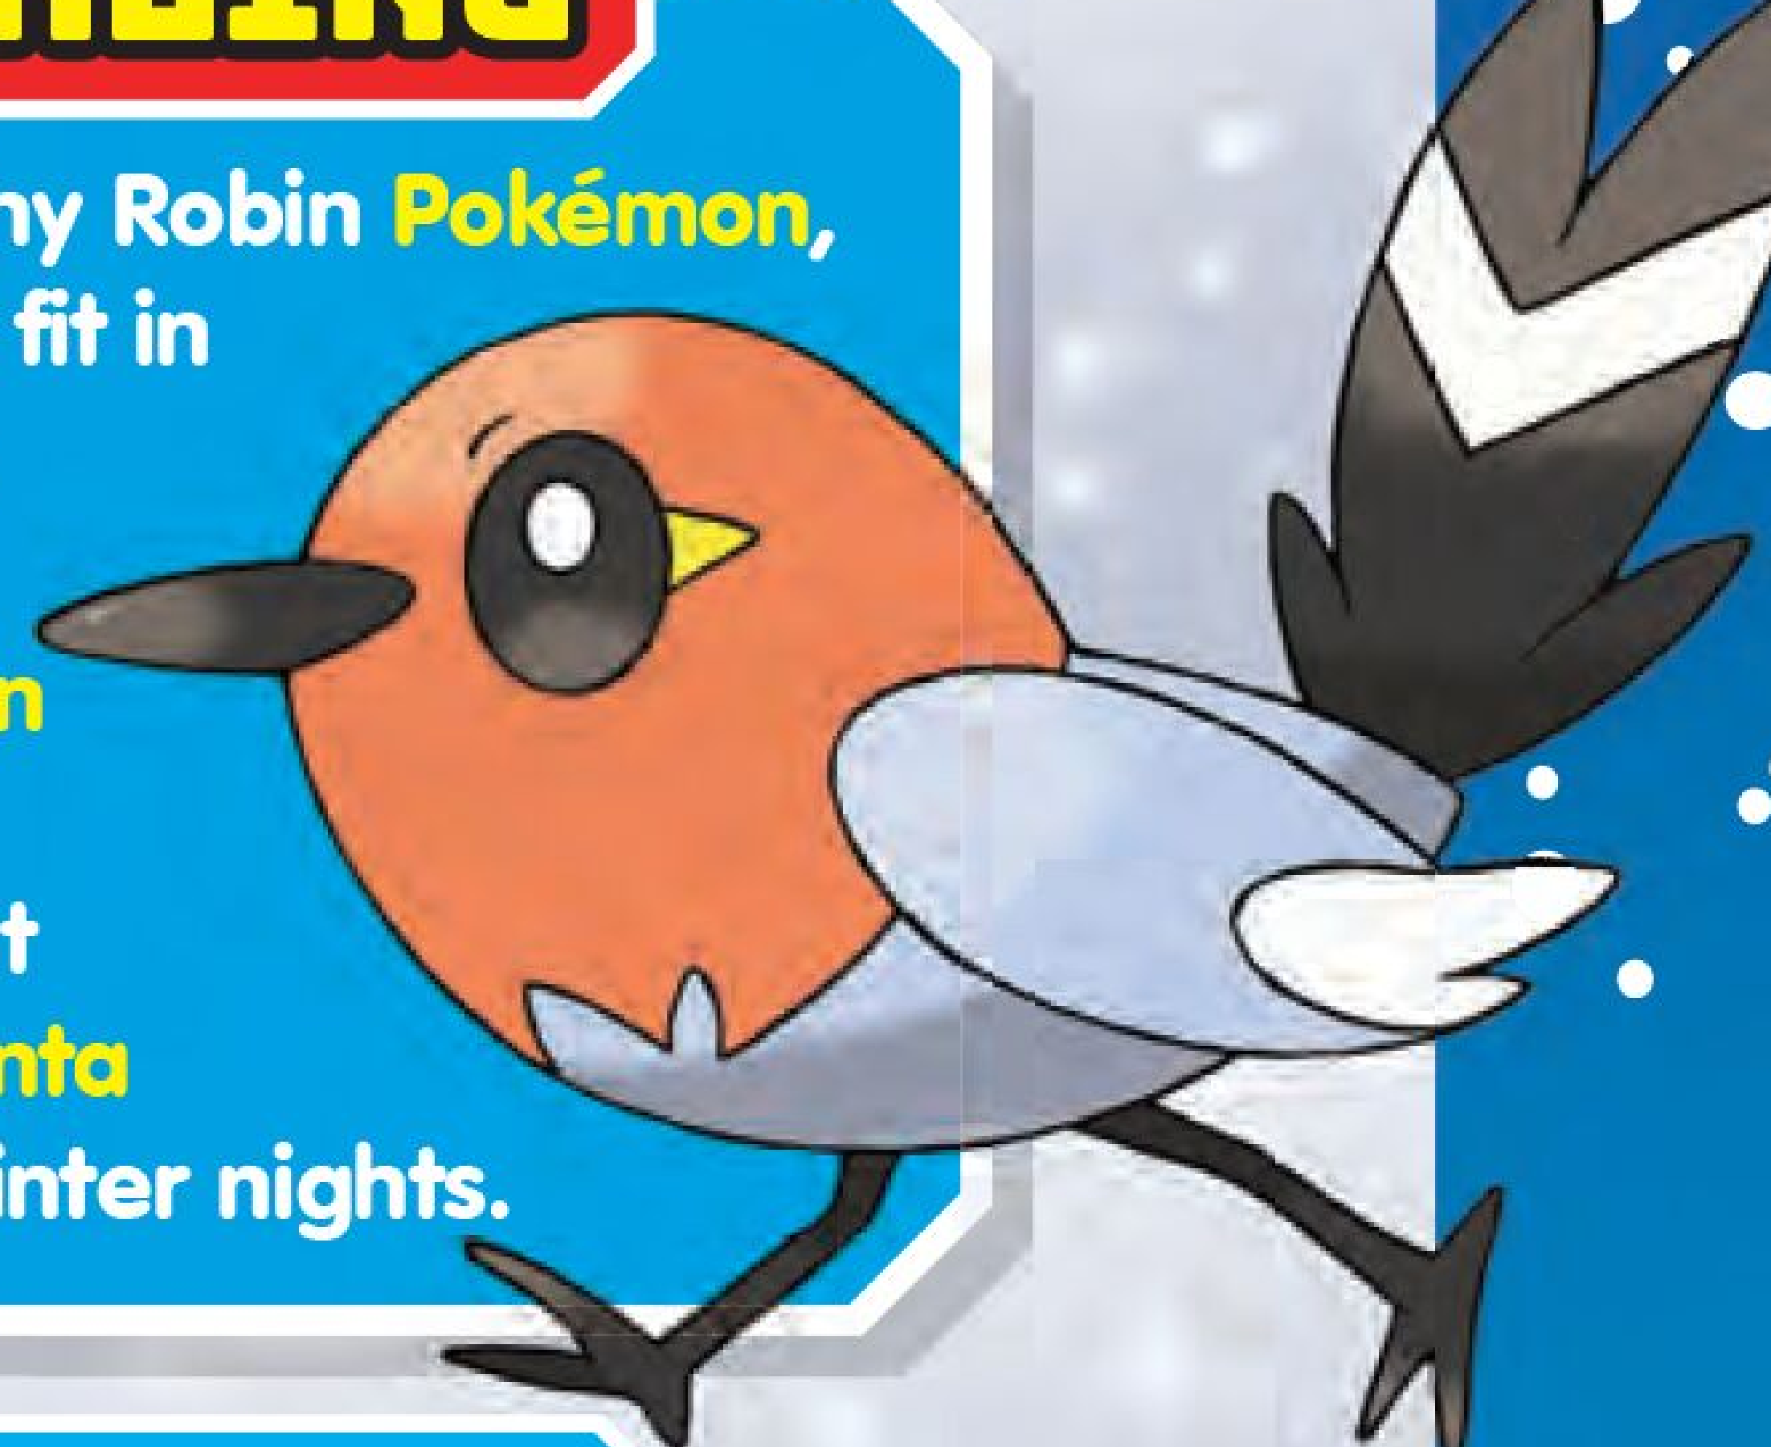
## DRAGONITE

With children all over the world sending letters to **Santa**, you need a powerful partner to deliver them all. **Dragonite** are fast, powerful and often used as postman **Pokémon**!



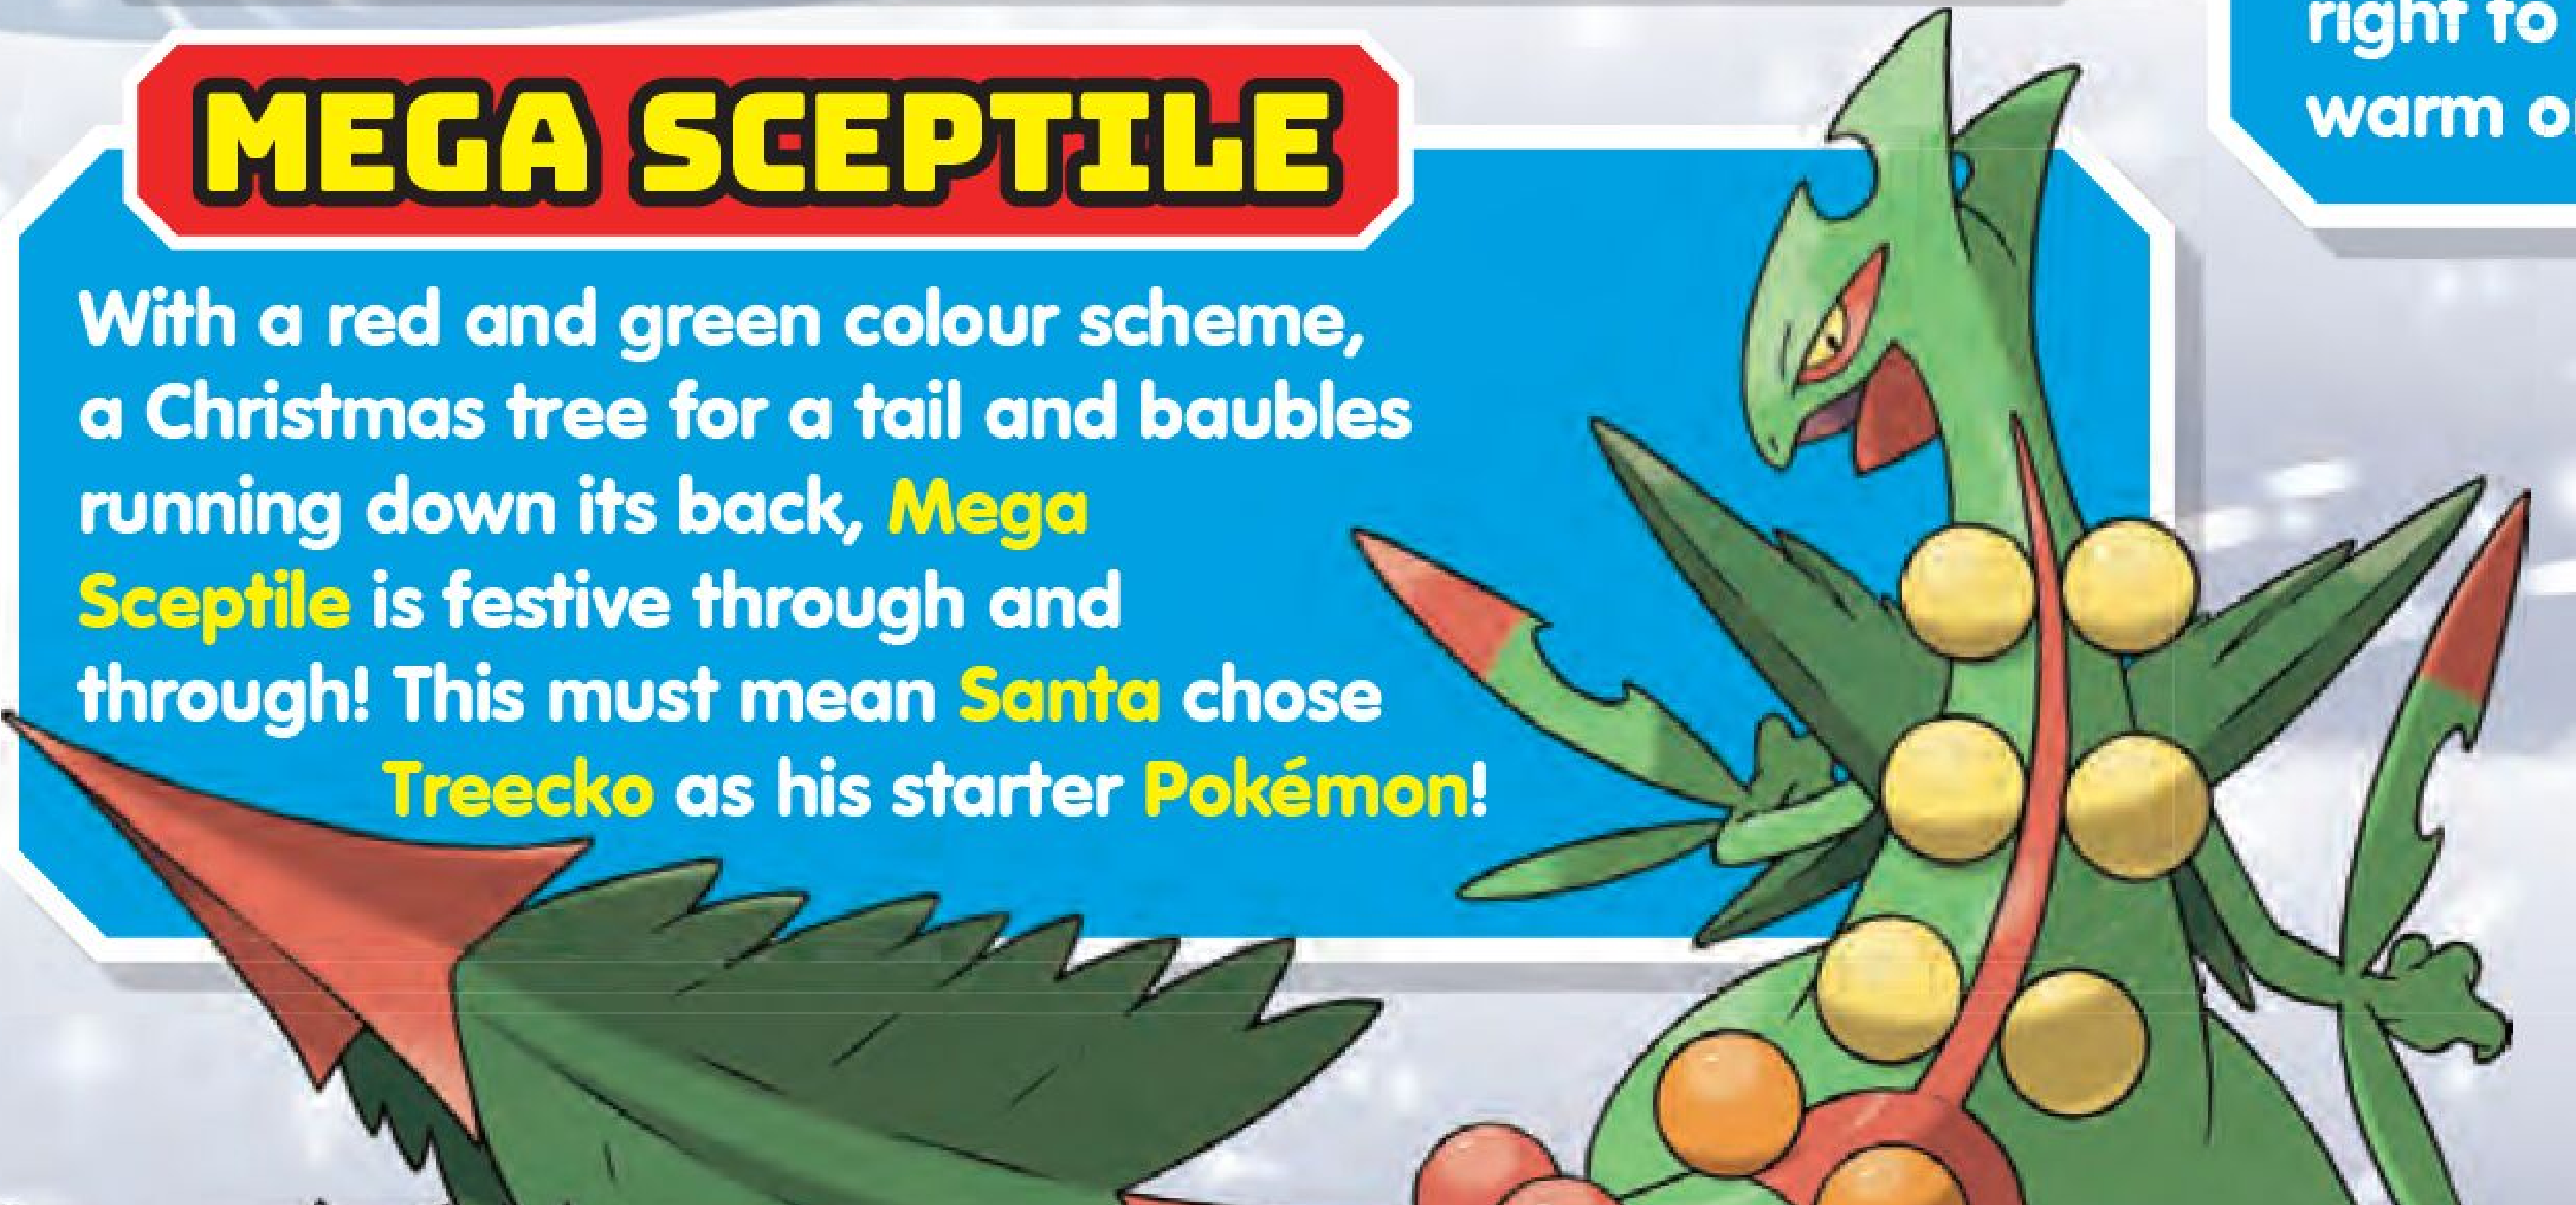
## WYRDEER

**Santa** needs reindeer to pull his sleigh and there is no better choice for the job than **Wyrdeer**! This Psychic-type is strong, wise and even has a matching beard!



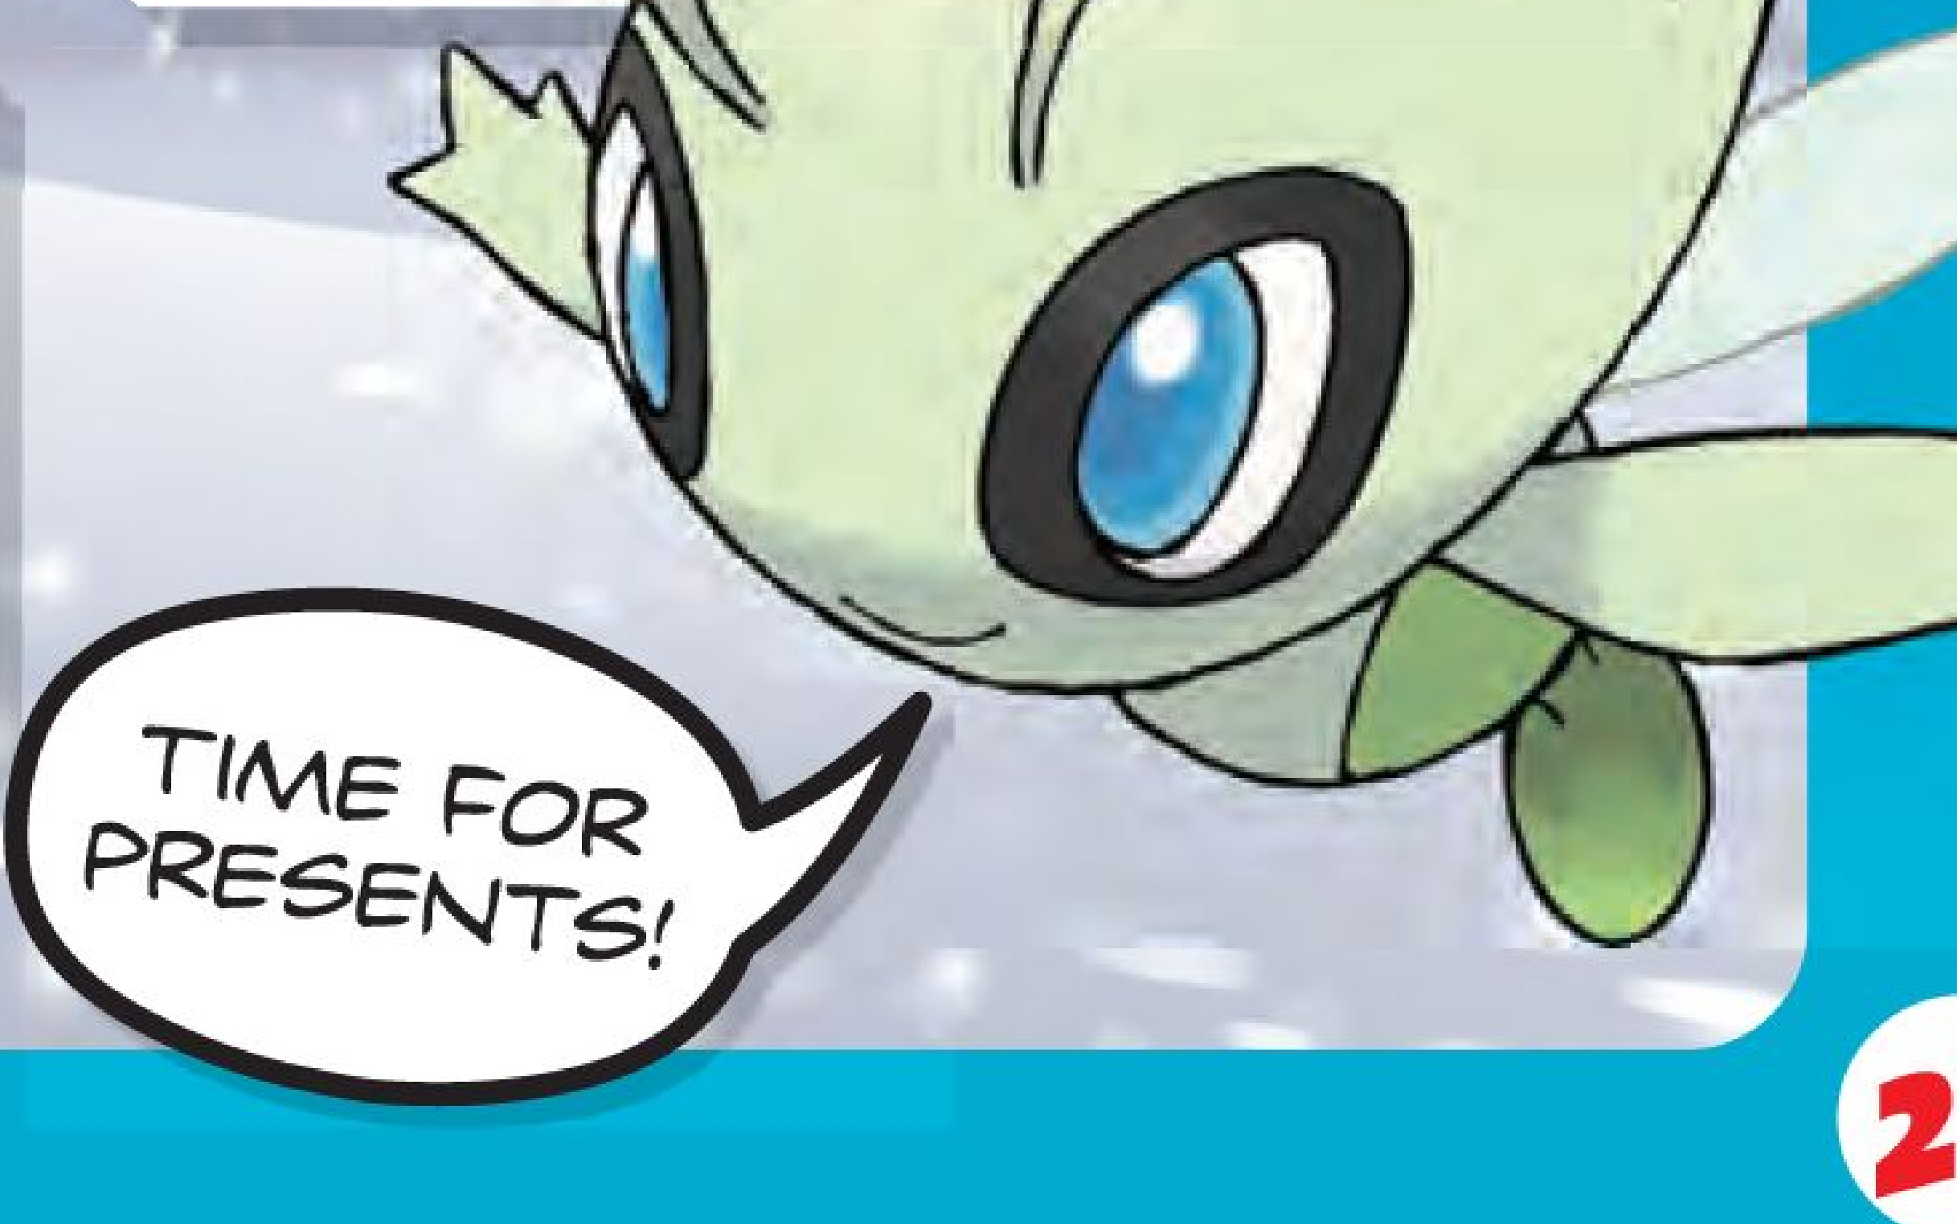
## FLETCHLING

Known as the Tiny Robin **Pokémon**, **Fletchling** would fit in just as well on a Christmas card as on a **Pokémon** team. As a Fire-type, it's just right to keep **Santa** warm on cold winter nights.



## MEGA SCEPTILE

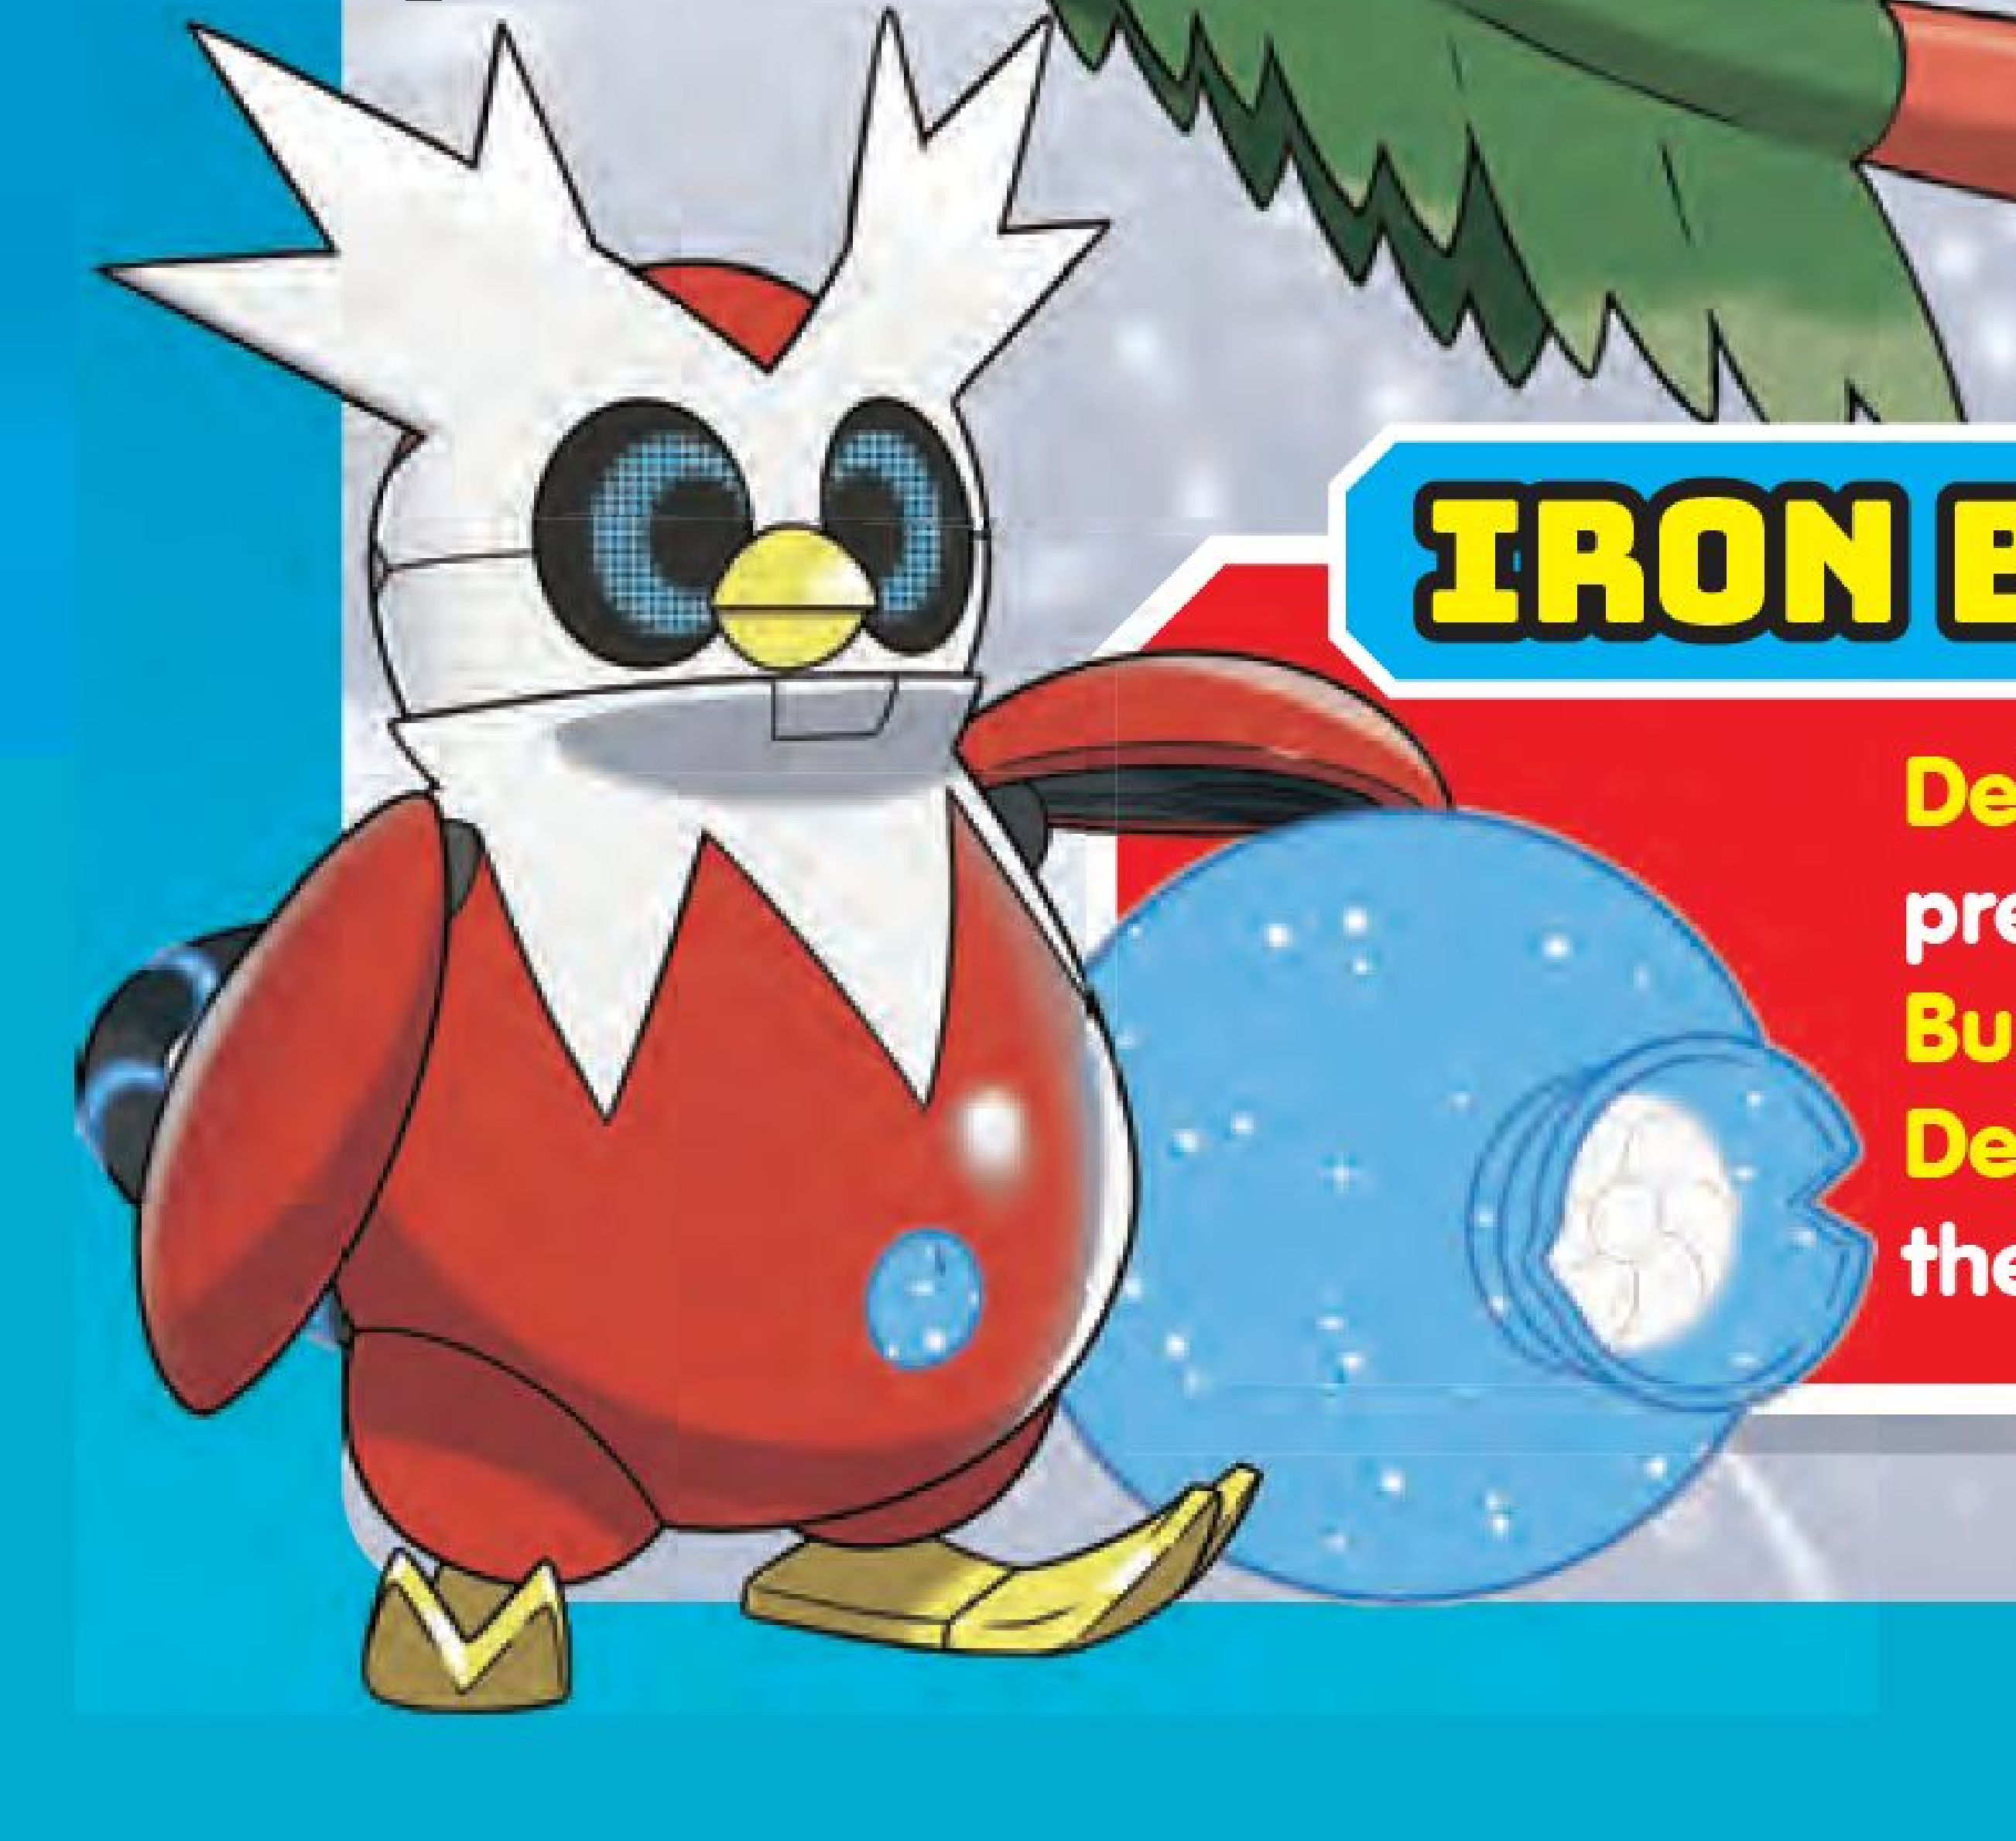
With a red and green colour scheme, a Christmas tree for a tail and baubles running down its back, **Mega Sceptile** is festive through and through! This must mean **Santa** chose **Treecko** as his starter **Pokémon**!



TIME FOR PRESENTS!

## CELEBI

**Santa** would be nothing without his mythical elves, and the Mythical **Pokémon Celebi** is just the elf for the job! Ever wondered how **Santa** gets around the world in just one night? Thank **Celebi's** time travel powers!



## IRON BUNDLE

**Delibird** is known for delivering presents with its sack-like tail. **Iron Bundle**, the far-future version of **Delibird** is just as Christmassy but has the bonus of being a springy toy itself!

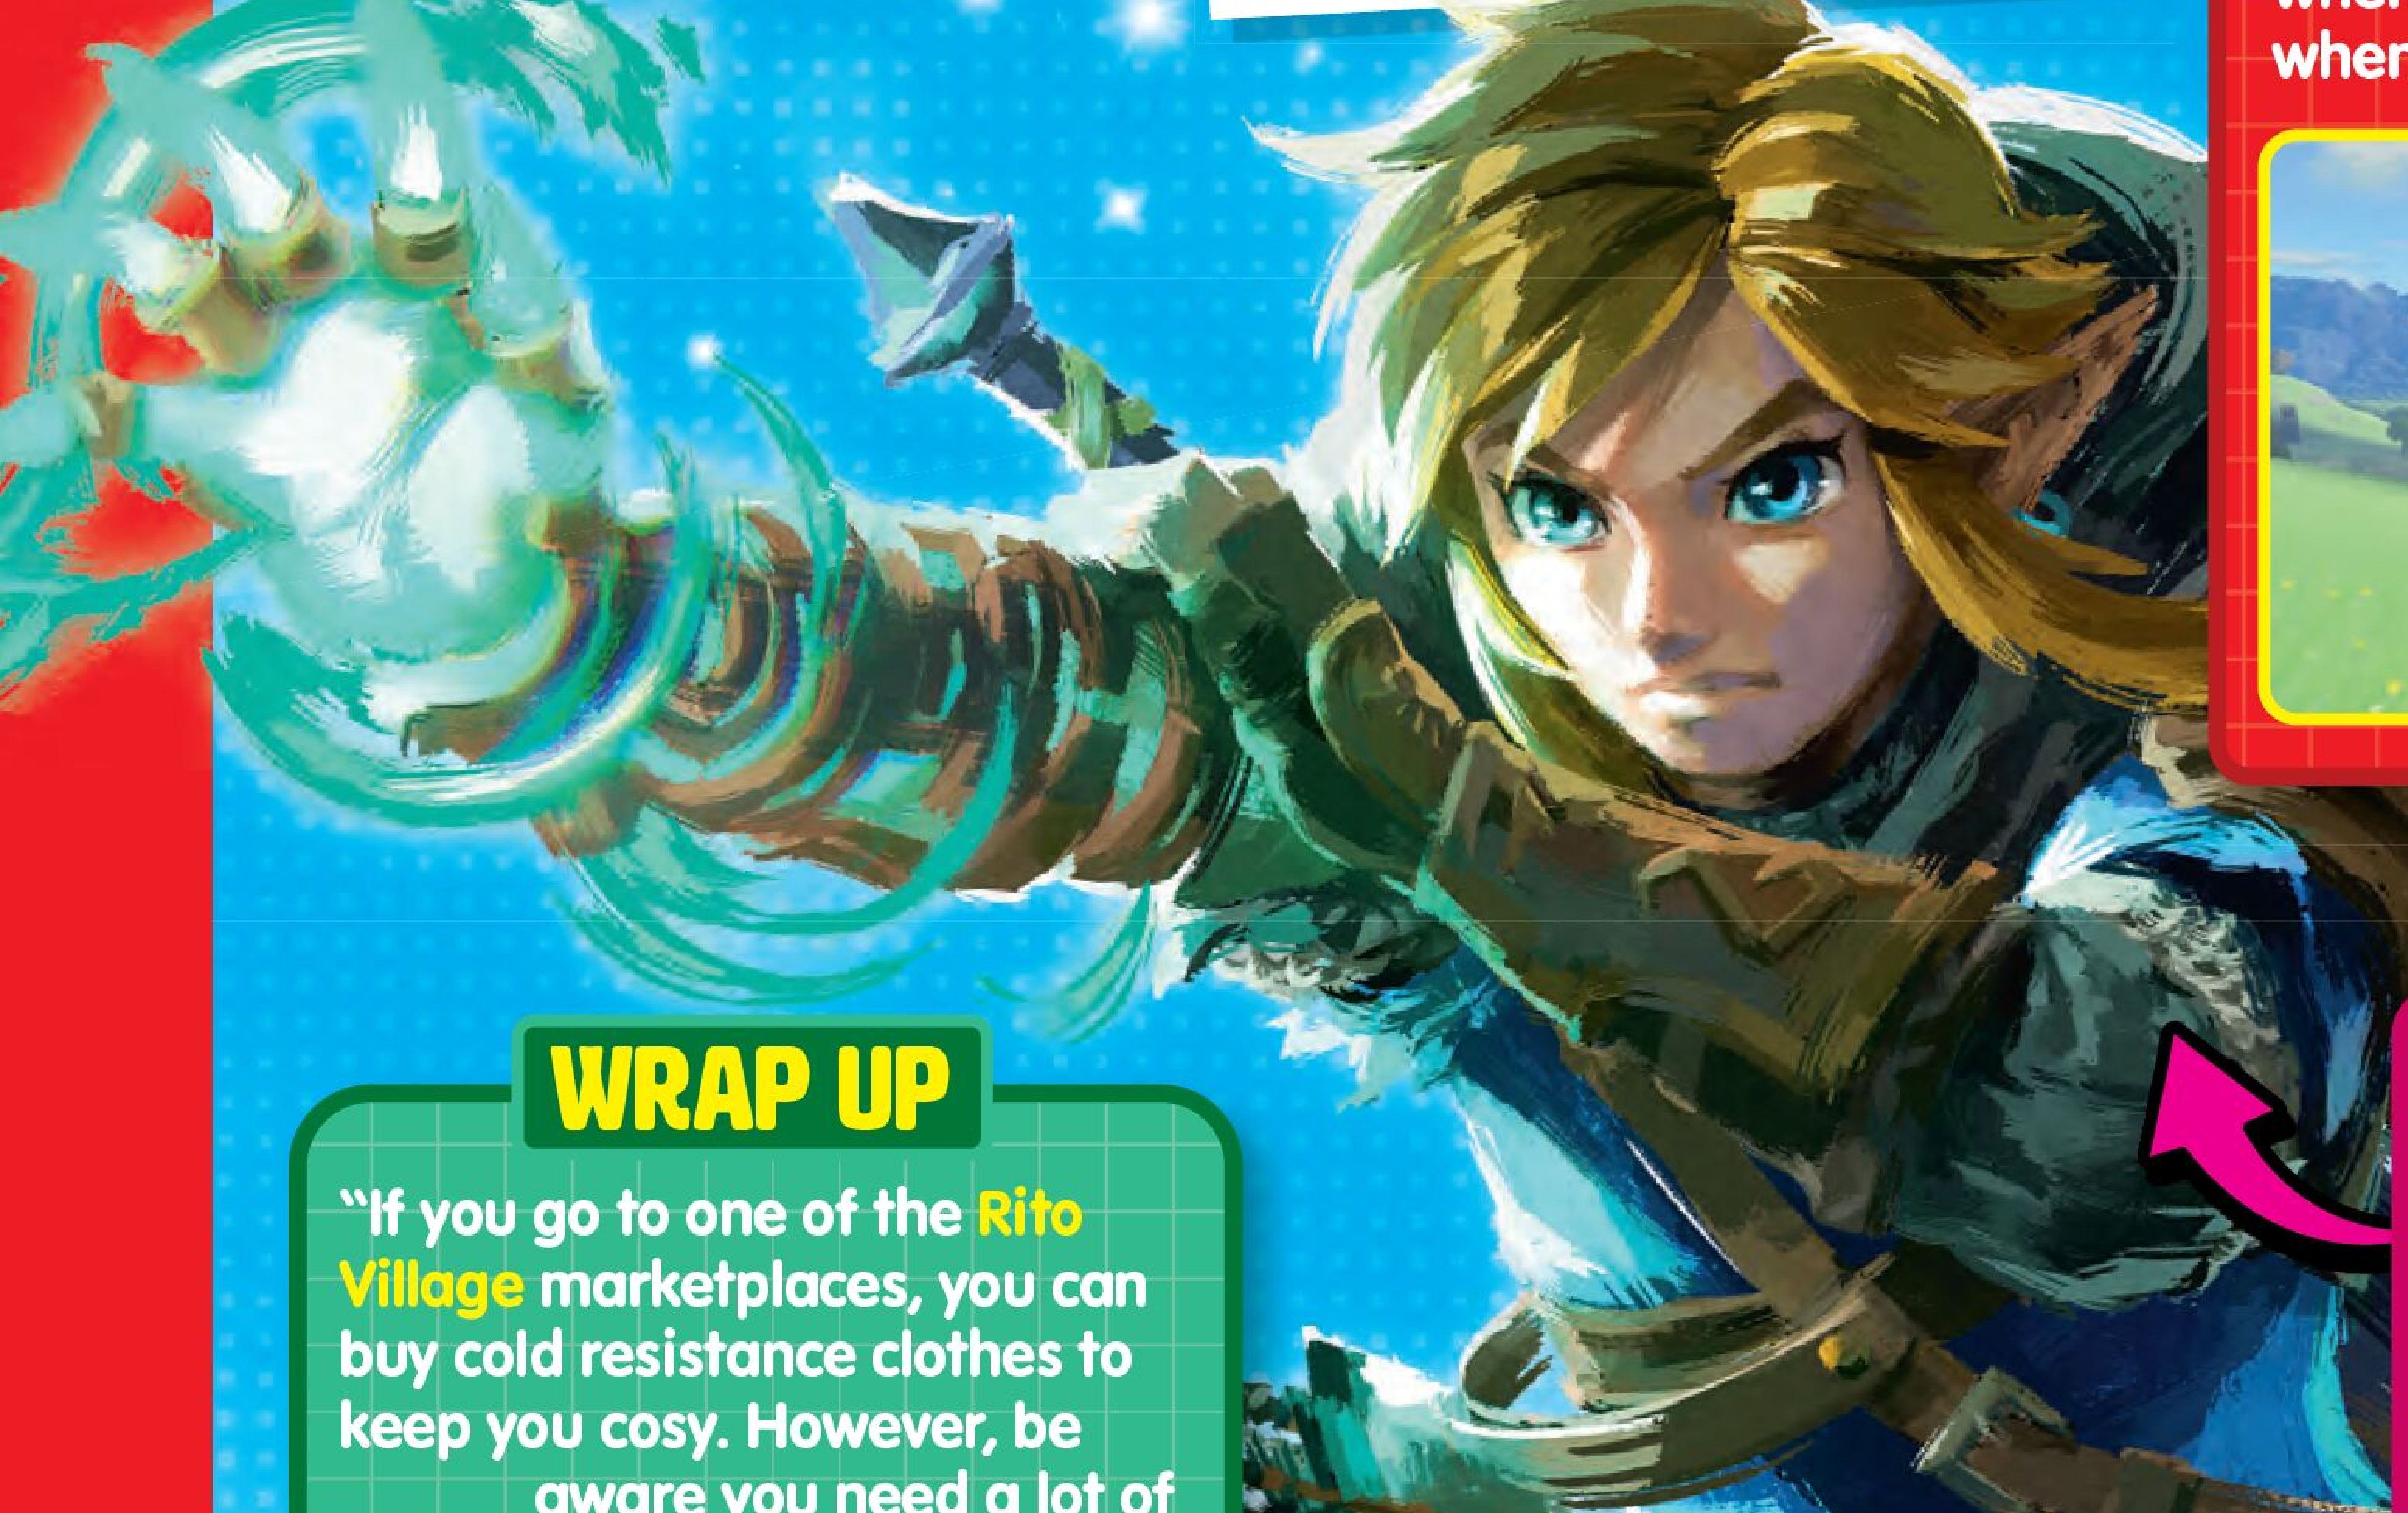
## MERGE

"Don't forget the loot drops when killing a boss. Using your merge ability, which you get on one of the first shrines, you can merge materials with your weapons to add more attack points."

## LOOK FOR CRICKETS

"To some, Crickets look like an annoying bug, to others they're an ingredient to success! Collect these along with Rhino Beatles to create energising elixirs — useful when climbing mountains and when you're low on stamina!"



## WRAP UP

"If you go to one of the Rito Village marketplaces, you can buy cold resistance clothes to keep you cosy. However, be aware you need a lot of Rupees for it so be sure to Rupe-up!"

## HUNGRY WORK

"Fighting and solving puzzles all day can make you peckish and that's why spending an in-game day getting food isn't a bad idea! Plus, it restores health so is very worthwhile in boss battles!"
